Road to PyUVM :

- Python oop
    - Classes
    - Attributes , self
    - Constructors
    - User-defined methods
    - Accessing classes members
- Cocotb
    - Coroutines , @coctb.test()
    - Triggers
    - Gather, select and tasks(cocotb.start_soon())
    - Assert statement
- Pyuvm
    - Main uvm components and objects
